12. After selecting an account to deposit the check to, the user enters the amount of the check.

13. The BancorpSouth Mobile App enables account holders to deposit checks electronically by taking a photo of the front and back of the check. After selecting an account to deposit the check to, the user enters the amount of the check.

14. The photo of the front and back is manually taken by the user – as a result, the images produces may be blurry or otherwise undesirable, and the application enables the user to retake a given photo (front or back). A visual representation of the photos is displayed on the screen.

15. Upon being accepted by the user (via the BancorpSouth Mobile App), the application pre-processes the front and back images to produce and front and back pre-processed images that is controlled by one or more preprocessing parameters received from a device (e.g., a server used to download the BancorpSouth Mobile App) separate from the user device (user's

smart phone) in a conversion of the one or more images or the one or more replacement images as specified for use by a receiving party.

16. Defendant controlled the operation and use of the BancorpSouth Mobile App and encourages its customers to use the BancorpSouth Mobile App to deposit checks to the customer's accounts with Defendant. The Defendant's BancorpSouth Mobile App is the Accused Instrumentality through which Defendant and its customers infringe the '094 Patent.

17. At least by developing, distributing, operating, promoting, and encouraging the use of the BancorpSouth Mobile App, Defendant encourages its customers to use the BancorpSouth Mobile App to practice the claimed methods, which Defendant controlled the use of and derives a direct benefit and profit from.

18. Upon information and belief, defendant has infringed and continues to infringe one or more claims, including claim 42, of the '094 Patent by developing, distributing, operating, promoting, and encouraging the use of the BancorpSouth Mobile App in the United States without authority. Defendant has infringed and continues to infringe the '094 Patent either directly or through the acts of inducement in violation of 35 U.S.C. § 271.

19. Defendant has been on notice of the '094 Patent at least as early as February 22, 2019 when it received a notice letter, which included a claim chart comparing the '094 Patent claims to the BancorpSouth Mobile App.

20. Claim 42 recites:

42. A computer implemented method performed by an image submission tool on a user device, comprising:

causing the image submission tool to generate a visual representation of
one or more images, the visual representation enabling a user to

determine whether the one or more images should be replaced with one or more replacement images;

causing the image submission tool to enable a user to enter text information for association with the one or more images or the one or more replacement images;

causing the image submission tool to pre-process the one or more images or the one or more replacement images to produce one or more pre-processed images, the pre-processing by the image submission tool controlled by one or more pre-processing parameters received from a device separate from the user device in a conversion of the one or more images or the one or more replacement images as specified for use by a receiving party;

causing the image submission tool to enable a user to submit the one or more pre-processed images; and

causing the image submission tool to transmit the one or more pre-processed images.

21. As indicated above, the BancorpSouth Mobile App enables account holders to deposit check electronically by taking a photo of the front and back of the check. After selecting an account to deposit the check to, the user enters the amount of the check.

22. More particularly, the BancorpSouth Mobile App is a computer implemented method performed by an image submission tool on a user device.

23. In the process of using the BancorpSouth Mobile App, the computer implemented method causes the image submission tool to generate a visual representation of one or more

images, the visual representation enabling a user to determine whether the one or more images should be replaced with one or more replacement images.

24. In the process of using the BancorpSouth Mobile App, the computer implemented method causes the image submission tool to enable a user to enter text information for association with the one or more images or the one or more replacement images.

25. In the process of using the BancorpSouth Mobile App, the computer implemented method causes the image submission tool to pre-process the one or more images or the one or more replacement images to produce one or more pre-processed images, the pre-processing by the image submission tool controlled by one or more pre-processing parameters received from a device separate from the user device in a conversion of the one or more images or the one or more replacement images as specified for use by a receiving party.

26. In the process of using the BancorpSouth Mobile App, the computer implemented method causes the image submission tool to enable a user to submit the one or more pre-processed images.

27. In the process of using the BancorpSouth Mobile App, the computer implemented method causes the image submission tool to transmit the one or more pre-processed images.

28. Lupercal has been damaged by Defendant's infringing activities.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests the Court enter judgment against the Defendant:

- a. declaring that the Defendant has infringed the '094 Patent;
- b. awarding Plaintiff its damages suffered as a result of Defendant's infringement of the '094 Patent;
- c. awarding Plaintiff its costs, attorneys' fees, expenses, and interest; and

d. granting Plaintiff such further relief as the Court finds appropriate.
